

**WHAT WILL THE HHS DO**  
to the  
**Dominican Sisters of the Congregation of St. Cecilia**  
in Nashville, TN?

**IT WILL SHUT THEM DOWN.**

In their 151-year history, the Nashville Dominicans have, with the help of God, survived a Civil War on their doorstep, deadly epidemics, devastating floods, economic depression and tumultuous social upheaval. Today, however, they face a new, more insidious threat — their own government. Should HHS persist in implementing its contraceptive mandate, the Congregation will be forced to curtail its mission. What war and disease could not do to the Congregation, the government of the United States will do. It will shut them down.

Who says? How? Why? Find out. And please Stand Up for our Religious Liberties.
